EDUCATION

B.Sc. Software Engineering | University of Business and Technology (UBT), Jeddah | Graduated June 2026

GPA: 4.27 / 5.00, Second Class Honors

PROFESSIONAL SUMMARY

A driven and recent Software Engineering graduate (UBT) with a genuine passion for the technology world, specializing in Artificial Intelligence, Cloud Computing, IT Infrastructure, and Software Solutions. Experienced in designing AI-powered platforms, intelligent analytics, smart city solutions, and fraud detection systems across cybersecurity, fintech, and IoT — eager to turn complex challenges into intelligent, scalable systems aligned with Saudi Vision 2030.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Backend & Frontend: FastAPI, Node.js, Express.js, REST APIs, WebSockets, Next.js, React, Tailwind CSS

AI & Data Science: Machine Learning, Generative AI, Predictive & Behavioral Analytics, Anomaly & Fraud Detection, Risk Scoring, Explainable AI

Databases: PostgreSQL, MySQL, Prisma ORM, Database Design & Data Modeling

Cloud & Infrastructure: Microsoft Azure, AWS, Docker, Virtual Machines, Networking (TCP/IP)

Software Engineering: Software Architecture, Requirements Engineering, Testing, UML, SDLC, Agile

Soft Skills: Leadership, Problem Solving, Teamwork, Communication, Project Coordination, Critical Thinking, Time Management, Adaptability

PROJECTS & EXPERIENCE

SaTr – AI Fraud Detection Platform | Software Engineer & AI Engineer FinTech Hackathon 2025 – 2026

FastAPI, Python, Scikit-Learn, PostgreSQL, Machine Learning

- Co-developed a production-grade AI fraud detection platform; led the AI module (ML modeling, anomaly detection, explainable AI, hybrid risk-scoring) with AML rule analysis and blacklist matching.
- Achieved **ROC-AUC 96.04%**; contributing to a research paper and patent (in preparation).

Absher Neuron 2.0 – AI Security Intelligence Platform | Lead Software Engineer & AI Engineer Absher Hackathon — Finalist 2025 – 2026

Next.js, TypeScript, FastAPI, PostgreSQL, Prisma, Scikit-Learn, Docker

- Built an AI security intelligence platform with behavioral profiling, anomaly detection, risk scoring, adaptive authentication, and threat prediction.
- Designed Triple Verification (Face, Live Camera, Phone) with real-time monitoring dashboards and live alerting.

Matrix Smart Makkah – Smart City AI Operating System | Lead Software Engineer & AI Engineer Smart Makkah Hackathon 2025

Next.js, TypeScript, FastAPI, PostgreSQL, IoT, Predictive Analytics

- Developed a smart city platform unifying transportation, environmental monitoring, waste management, and emergency response.
- Leveraged AI, IoT, and predictive analytics for city-wide forecasting and executive command-center dashboards.

Smart Home AI Platform – Intelligent Home Operating System | Lead Software Engineer & AI Engineer 2024 – 2025

Next.js, Express.js, FastAPI, PostgreSQL, Socket.IO, Scikit-Learn

- Built a full-stack AI smart home ecosystem with IoT integration, predictive maintenance, and intelligent automation.
- Delivered Digital Twin concepts, ML forecasting, anomaly detection, and real-time analytics dashboards.

StudentCareer AI Platform – Career Intelligence & Readiness System | Lead Software Engineer & AI Engineer 2024

Next.js, FastAPI, PostgreSQL, Prisma, Scikit-Learn

- Developed an AI SaaS platform with resume analysis, interview simulation, skill-gap assessment, and roadmap generation for career readiness.

CERTIFICATIONS & TRAINING

- Artificial Intelligence Concepts & Advanced Applications — SDAIA, Fundamentals of Artificial Intelligence — SDAIA
- Professional Certificate Program (PCP) in Project Management Practicals, CHIPATHON IC Design Training Program
- Code Generation & Optimization (IBM Granite), Generative AI for Software Development
- Introduction to Cloud Computing — IBM, Introduction to Data Engineering — IBM

AWARDS, LEADERSHIP & ACTIVITIES

- Formula 1 Saudi Arabian Grand Prix (2023–2025): Track Line Leader & Fire Marshal Team Member.
- GDG On Campus – Management Team Lead: 10+ workshops, 5+ events, 30+ participants.
- ACM Student Chapter – Vice Leader, Organizing Team: supervised 15+ members & coordinated technical events.
- 90+ Volunteer Hours, Research Paper & Patent Contributor (in preparation).

LANGUAGES

Arabic — Native

English — Professional Working Proficiency
